**Comments:**

7/27/2001 - Letter sent closing and retiring file per 6/20/2001 inspection which found reclamation satisfactory.

6/20/2001 - Inspected site per operator request for file closure. Site is satisfactory. There are a few sparse areas of vegetation, but there is not much can be done becuae of the pumice being so white and the slopes so steep. Inspector recommends file be released.

3/5/2001 - Received letter from SITLA stating lease was canceled 2/12/98 because reclamation was complete. Operator may desire to obtain a new lease from SITLA & re-open the mine. It was determined to leave the DOGM mining permit open. The State has traded all its rights and interest to the federal government. Operator must obtain a new lease and post a reclamation bond with the BLM before re-opening the mine.

2/13/2001 - Received notice from SITLA that this land was transferred to BLM in West Desert Exchange - January 2001.
